

S21 – General Topics

Organizers: Nak-Joong Lee, Gabriel Taillon

This session is organized for all submissions which do not neatly fit into any other category.

Organizers

Nak-Joong Lee is working as an assistant professor at the Department of Applied Mechanics and Aerospace Engineering of WASEDA University, Tokyo, Japan. He received his B.S, M.S and Dr. Eng. From Korea Maritime and Ocean University, Korea. He is interested in hydropower, ocean energy, fluid machinery and computational fluid dynamics.

Gabriel Taillon is currently studying as a 3rd year Doctoral student in Miyagawa Laboratory. He first obtained his B.S in engineering physics at Polytechnique Montréal, Canada, followed by a M.S where he studied the cavitation erosion resistance of hard coatings. His present research is about novel ways to model cavitation erosion based on statistical analysis of impacts. He is the Webmaster of the ISROMAC2020 conference.
